

Rothwell Primary Schools Parents Guide to Accessing Classroom Assignments - ipad/iphone Mode

Once pupils have logged into Google Classroom, they will see the Stage/Class Overview page. From here they can see the stage/class they are registered to - clicking on their stage/year group will open the classroom.

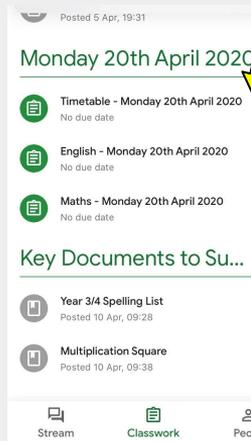

Stream shows a list of posts made to the class by the teachers. This includes announcements, questions and any homework or assignments.

Classwork is the area where all work, or 'Assignments', will be found. In here, you will also find key documents to support learning as well as learning from previous days.

A list of key sections within the Classwork part of Google Classroom can be found here. We aim to always have the days' work at the top of the page. There will also be a suggested timetable for the day. Open this by clicking on it. There might also be other useful resources to support your learning.

Year 4 Home Learning - Monday 20th April 2020

Add class comment

Morning!

Hope you've all had a fantastic Easter break.

Now is the time to start your online learning.

You can see your suggested timetable for the day below - just click on this to open and use it to help organise your day.

Any work that you need to complete can be found on in the 'Your Work' section at the side of the page.

You can type your answers into the boxes, or write your answers in a book or on a piece of paper - it's up to you.

When you've finished the tasks, click the 'Hand-in' button and we will be able to look at your learning.

Add private comment

There is a section here for class comments. Your teacher might write something here that they want everyone to see.

When you open each assignment, there will be a message from your teachers, talking about the expectations for the day.

Private comments can be used if you need some help or maybe the work is too difficult. Only your teacher can see these.

Click on this arrow to show your work for the day

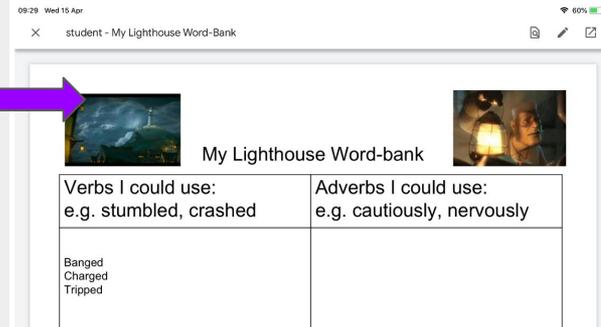

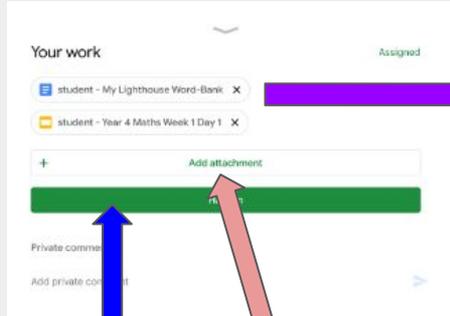

The work that you need to complete during the day can be found in 'Your Work' section. These will be made so that you can type any answers into the boxes if you choose to.

When you click on an assignment, it will open up in a new window.

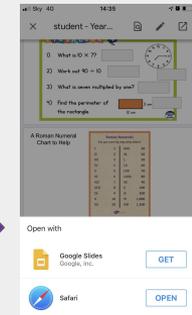

All teachers have tried to ensure that these are editable - this means that children can type their answers into the documents. To open up an editable document, click this icon.

Once you completed **ALL** of your work, click on **Hand in**.

There is also the opportunity to create your own slides or documents. This is great if you have a photograph of your work that you would like to share.

To open an editable version of the document, you may need to download Google slides or Google docs separately.

Using Google Slides

Answers and ideas can then be typed directly onto the document.

Allows you to upload an image from your computer,web, drive etc.

Line tool, allows you to use various lines including scribble

Shapes, arrows, equations and callouts (speech bubbles)

Text box

Back button

If you hover over the answer box it will bring a blue box up. When the box is present you can type your answer in there. You can make the box bigger if required

Write fractions to complete the sentences.

a)  of the counters are yellow. Type in the boxes to answer.

b)  of the counters are red.
